The Best Water Heater For Your Needs

How do you pick it? Follow these simple steps, and you'll be able to choose a water heater that will serve your needs now – and in the future.

Find The Right Size

This chart will help you select the right size water heater. If you're replacing an old water heater, you may want to choose a bigger size if you're adding to your water-using appliances, increasing the size of your family, or if you find you run out of hot water frequently.

WATER HEATER SELECTION GUIDE

GAS		6 YEAR WARRANTY		9 YEAR WARRANTY		12 YEAR WARRANTY	
HOUSEHOLD SIZE		60* GALLON		50 GALLON		50 GALLON	
5 OR MORE PEOPLE	REGULAR DEMAND	60*	50	50	50	50	50
	HIGH DEMAND	75					
3 TO 4 PEOPLE	REGULAR DEMAND	50	50	50	50	50	50
	HIGH DEMAND	60*	50	50	50	50	50
2 PEOPLE OR LESS	REGULAR DEMAND	40	40	40	40	40	40
	HIGH DEMAND	50	40	40	40	40	40

Other sizes available. Some models available in LP. Ask a sales associate for details. This chart is designed to help you select the appropriate water heater capacity. Your use may vary. Regular Demand capacities are based on a home with a washing machine and an automatic dishwasher. High Demand capabilities meet the hot water needs of teenagers, whirlpool tubs, spas, and oversized baths. Always anticipate your family's future needs when selecting your water heater.

*60 Gallon Heavy Duty

Why Do Some Water Heaters Cost More Than Others?

The value of a water heater is determined by (1) how long it lasts, (2) how much hot water it provides, and (3) how much it costs to operate. Better water heaters last longer, give you more hot water, and cost you less in energy bills.

Here are some things to look for in a water heater that mean it's a better value for you:

- **Longer Warranties.** The longer a water heater lasts, the more you get for your money.
- **Fast Recovery.** Our 6-year Heavy Duty Gas, 9-year, and 12-year water heaters provide more hot water.
- **Integra™ System** – now on 6, 9 and 12 year 30, 40 and 50 gallon gas models. Automatically shuts down the water heater if flammable vapors are detected. It features a low emission burner design, maintenance-free protection, no filters to clean and standard replacement parts.
- **EverKleen™ Self Cleaning System** fights sediment buildup that can cause your water heater to fail or provide less hot water. Available on 9-year and 12-year models.
- **Rigid Foam Insulation** fights stand-by heat loss.
- **Heat Traps** prevent convective heat loss, so the water heater costs less to operate. Available on 12-year models.
- **Low Input Pilots** reduce wasted energy during stand-by periods for all gas models.

Installing Your Water Heater

All Richmond water heaters come with detailed installation instructions. Some stores will also offer professional installation services.

Our gas water heater models are shown in this brochure. Inside is a specification chart you can use to select the exact model that's right for you.

Thank you for choosing Richmond.

FORM NO. T-144F Rev. 8

12

YEAR LIMITED WARRANTY ON TANK AND PARTS

NOW WITH INTEGRA SYSTEM

If you want years of trouble-free service and superior energy efficiency, this is the water heater to choose. It provides abundant hot water at extremely low operating costs.

- 12 Year limited warranty on tank and parts
- Fast recovery - 11% more hot water
- EverKleen™ self-cleaning system fights sediment build up
- Heavy-duty anode rod for extended tank protection
- Heat trap and pipe insulation kit reduces convective heat loss for greater efficiency
- Energy conserving low input pilot
- Porcelain lined tank surface for longer life
- Factory installed temperature and pressure relief valve
- Includes extra durable high temperature dip tube to meet the most stringent plumbing codes
- Piezo ignition system for "No Match" lighting
- Low emissions burner
- Meets or exceeds National Appliance Energy Conservation Act (NAECA) requirements

9

YEAR LIMITED WARRANTY ON TANK AND PARTS

NOW WITH INTEGRA SYSTEM

Dependable and highly efficient, this water heater features our exclusive self-cleaning system that prevents lime and sediment from reducing performance. Designed to provide years of hot water for your family.

- 9 Year limited warranty on tank and parts
- EverKleen™ self-cleaning system fights sediment build up
- 76% recovery efficiency for more hot water
- Rigid foam insulation for superior heat retention
- Heavy-duty anode rod for extended tank protection
- Energy conserving low input pilot
- Factory installed temperature and pressure relief valve
- LP models feature durable aluminized steel burner designed specifically for propane gas
- Includes extra durable high temperature dip tube to meet the most stringent plumbing codes
- Piezo ignition system for "No Match" lighting
- Low emissions burner
- Meets or exceeds National Appliance Energy Conservation Act (NAECA) requirements

6

YEAR LIMITED WARRANTY ON TANK AND PARTS

NOW WITH INTEGRA SYSTEM

A value-priced water heater that can keep your energy bills under control while supplying your hot water needs.

- 6 Year limited warranty on tank and parts
- Energy conserving low input pilot
- Tank protected by exclusive porcelain formula
- 76% recovery efficiency for more hot water
- Rigid foam insulation for superior heat retention
- Factory installed temperature and pressure relief valve
- Includes extra durable high temperature dip tube to meet the most stringent plumbing codes
- LP models feature durable aluminized steel burner designed specifically for propane gas
- Piezo ignition system for "No Match" lighting
- Low emissions burner
- Meets or exceeds National Appliance Energy Conservation Act (NAECA) requirements

6

YEAR LIMITED WARRANTY ON TANK AND PARTS

NOW WITH INTEGRA SYSTEM

HEAVY DUTY – Ideal for installations that include spas and luxury showers, or wherever abundant hot water is required. Large tank and fast recovery mean plenty of hot water when you need it.

- 6 Year limited warranty on tank and parts
- Designed specifically for high volume uses
- Large tank capacities (up to 100 gallons)
- High BTU input for fast recovery
- Durable aluminized steel burner
- Piezo ignition system for "No Match" lighting
- Extra durable brass drain valve - preferred by professional plumbers
- Rigid foam insulation for superior heat retention
- Tank protected by exclusive porcelain formula
- Factory installed temperature and pressure relief valve
- Includes extra durable high temperature dip tube to meet the most stringent plumbing codes
- Meets or exceeds National Appliance Energy Conservation Act (NAECA) requirements

PowerVent

6 YEAR LIMITED WARRANTY ON TANK AND PARTS

PowerVent® water heaters are designed to be installed where other water heaters can't.

- 6 Year limited warranty on tank and parts
- Flammable vapor detection sensor disables heater in the event of flammable vapor accumulation
- Hot surface ignition system for "No Match" lighting
- 40 and 50 gallon models – Install up to 100 feet from outside wall using 3" schedule 40 PVC, ABS or CPVC pipe for venting
- 60 and 75 gallon heavy-duty models – Install up to 45 feet from outside wall using 3" schedule 40 PVC, ABS or CPVC pipe for venting
- Ideal for retro-fit replacement of electric water heater
- Perfect where high efficiency furnaces are used
- Compact quiet blower with standard 110 volt connection
- Integrated self-diagnostic system control, thermostat and gas valve
- Durable brass drain valve
- Factory installed temperature and pressure relief valve
- Meets or exceeds National Appliance Energy Conservation Act (NAECA) requirements

Direct Vent

6 YEAR LIMITED WARRANTY ON TANK AND PARTS

The Direct Vent water heater vents atmospherically through an outside wall, eliminating the need for a vertical chimney. Ideal for retro-fit replacement of an electric water heater, or when air outside the dwelling is needed for combustion.

- 6 Year limited warranty on tank and parts
- Vents through outside wall eliminating need for chimney
- Ideal for retro-fit replacement of electric water heater
- 360 degree swivel coaxial vent for installation flexibility
- Energy conserving low input pilot
- Rigid foam insulation for superior heat retention
- Heat saving flue baffle design
- Factory installed temperature and pressure relief valve
- Includes extra durable high temperature dip tube to meet the most stringent plumbing codes
- Meets or exceeds National Appliance Energy Conservation Act (NAECA) requirements

Mobile Home

6 YEAR LIMITED WARRANTY ON TANK AND PARTS

Specially designed for manufactured housing. Comes with a variety of energy saving features.

- 6 Year limited warranty on tank and parts
- Specifically designed and UL approved for use in manufactured housing
- 76% recovery efficiency for more hot water
- Piezo ignition system for "No Match" lighting
- Side mounted T&P valve and cold water inlet for easier installation
- Convertible control for use with either natural or LP gas
- Energy conserving low input pilot
- Factory installed temperature and pressure relief valve
- Includes high temperature water way fittings to meet the most stringent plumbing codes
- Meets or exceeds National Appliance Energy Conservation Act (NAECA) requirements
- Meets HUD standard - section 3280.707(d)(1) or (2)

* Estimated annual operation costs based on the Department of Energy's national average unit energy costs and adopted by the Federal Trade Commission.

• Energy Factor and Average Annual Operating Costs based on D.O.E. (Department of Energy) test procedures. The D.O.E. national average fuel rate is \$1.218/therm for natural gas and \$1.87/gallon for LP gas.

• Feature, dimensional and energy information is subject to change.

* NOTE: Vent system can be installed up to 10" from outside wall. Diameter with air supply tube is 26-3/4". Review installation manual before installing.

† A vent Package Kit must be ordered separately with the Mobile Home Direct Vent models and must be in accordance with instructions furnished with the heater. No other roof jack or air inlet assemblies are approved with this heater. Clamps and secure strapping are packed in water heater carton.

** Gas utility model – qualifies for most gas utility programs.
